

CVS Inverclyde Environment Network

The Environment Network gives groups working on environmental or 'green' issues the opportunity to get together, learn and share information. It will be of interest to people who:

- Offer services for environmental groups
- Work or volunteer on environmental issues
- Want to find out more or get involved in environmental work or services in Inverclyde

If you would like to come along and find out more about the Environment Network, please register your interest to be invited to join the group in the first instance.

Simply click on the eBulletin/Networks link in the centre column headed up CVS Inverclyde, found at the bottom of our website pages, which will take you to the sign up page to register your preferences. Or contact Network facilitator, Bill Clements, Deputy Manager, CVS Inverclyde, directly for more information.

Details of upcoming Networks can be found on our website events calendar.
